Response to First Office Action

10 Commissioner for Patents
Post Office Box 1450
Washington, District of Columbia 20231

Sir:

15 In response to the Office Action mailed October 27,
2005, and per MPEP 2173.05(n) Applicants have selected a
number of claims not exceeding the twenty-five (25)
specified by the Examiner. Applicants present arguments as
to why the multiplicity of claims rejection is in error.

20 Further, in response to the Examiner's note that a
restriction may be required in a subsequent action,
Applicants present arguments that all claims pending are
drawn to a single invention and that restriction is not
proper.

25 Claim 42 is cancelled, as described below.

The contents of this Response to the First Office
Action are arranged as follows:

Amendments to the Claims page 2

Remarks - Selection of Claims and Arguments

30 Against Multiplicity Rejection page 48

Remarks - Arguments Against Restriction page 55

Remarks - General page 57
